A kromatin mint szabályozó közeg

My glass shall not persuade me I am old, So long as youth and thou are of one date; But when in thee time's furrows I behold, Then look I death my days should expiate. For all that beauty that doth cover thee, Is but the seemly raiment of my heart, Which in thy breast doth live, as thine in me: How can I then be elder than thou art? O! Therefore love, be of thyself so wary As I, not for myself, but for thee will; Bearing thy heart, which I will keep so chary As tender nurse her babe from faring ill. Presume not on thy heart when mine is slain, Thou gav'st me thine not to give back again

Számolva az óramondó időt

*Slátva, szép nap rút éjbe hogy merül,
Hogy kókad az ibolya nyár előtt,
Sezüst zúzt hogy kap a fekete fűrt;
Shogy ejti lombját a sok büszke fa,
Mely alatt nemrég tikkadt nyáj hűsölt,
Shogy hág kévék ravatalaira
A borzas-ősz szakállú nyári zöld, --
Sorsodat nézem, a szépségedét:
Útja a romboló időn visz át,
Hisz mind búcsúzik az édes, a szép,
Shal, oly gyorsan, ahogy mást nőni lát;
S csak gyermeked véd a kaszás Kor ellen,
Hogy dacolj vele, mikor elvisz innen.*
