CONTRIBUTORS

S. Akai, Laboratory of Plant Pathology, Kyoto University, Kyoto, Japan
Takashi Akazawa, Laboratory of Biochemistry, Faculty of Agriculture, Nagoya University, Anjo, Aichi, Japan
Paul J. Allen, Department of Botany, University of Wisconsin, Madison, Wisconsin
Armin C. Braun, The Rockefeller Institute, New York, New York
K. Starr Chester, Alton Box Board Company, Alton, Illinois
Antonio Ciccarone, Istituto di Patologia Vegetale, Bari, Italy
A. E. Dimond, The Connecticut Agricultural Experiment Station, New Haven, Connecticut
J. G. Horsfall, The Connecticut Agricultural Experiment Station, New Haven, Connecticut
J. G. Ten Houten, Institute of Phytopathological Research, Wageningen, The Netherlands
F. L. Howard, Department of Plant Pathology, College of Agriculture, University of Rhode Island, Kingston, Rhode Island
Akhtar Husain, The Connecticut Agricultural Experiment Station, New Haven, Connecticut *
G. W. Keitt, Department of Plant Pathology, University of Wisconsin, Madison, Wisconsin
Arthur Kelman, North Carolina State College, Raleigh, North Carolina
K. O. Müller, Commonwealth Scientific and Industrial Research Organization, Division of Plant Industry, Canberra, Australia †
L. Saraswathi-Devi, University Botany Laboratory, Madras, India
C. Sempio, Istituto di Patologia Vegetale, Università di Perugia, Italy
D. Subramanian, University Botany Laboratory, Madras, India
Ikuzo Urutani, Laboratory of Biochemistry, Faculty of Agriculture, Nagoya University, Anjo, Aichi, Japan
C. E. Yarwood, Department of Plant Pathology, University of California, Berkeley, California

* Present Address: Plant Pathologist, Regional Research Center (Oilseeds & Millets) I.C.A.R., Kanpur, India.
† Present Address: University of Heidelberg, Klingenteich Strasse 20, Heidelberg Neckar, Germany.
